First Display of The New Fall Garments

Of special interest to every woman is the first showing of a new season's styles. It matters not whether she wishes to buy right now or later, the new ideas, the new fabrics and the latest styles will appeal to her desire to know the latest edicts from the style centers.

The garments we are now showing represent the very newest and most-to-be-desired fashions created for this season's wear—every garment attractively correct in every detail.

New goods are arriving daily in every department of this store. Come and learn "what's what" in the new things for fall.

Stevens-Wilson Co.

SNAKE HAD THE OLD CAT GOING SOME

One afternoon last week, while sitting on the porch of her home, Mrs. S. J. Smith, wife of the postmaster of Oakman, observed the family cat coming from the orchard with all possible speed. When the animal reached the porch she observed that a snake three or four feet long had two coils of his length tightly wrapped about the body of the cat and had thrust his head and enough of his body through the cat's front legs to take a twist about the neck of the feline. Mrs. Smith grabbed a hoe and managed to relieve the cat from its uncomfortable plight by cutting off the head of the snake.

CONGRESS PREPARING FOR CURRENCY BILL

Washington, Sept. 2.—The House of Representatives is rapidly clearing its calendar to take up the currency bill next week. After voting tomorrow on the bill to provide a water supply for San Francisco, the House will take up several local measures and then enter upon a discussion of the deficiency appropriation bill. It is expected that there will be several days of debate on this measure and perhaps a hard fight by the regular republicans because of the provision abolishing the Commerce Court. Chairman Fitzgerald of the Appropriation Committee expects to get the bill out of the way by Saturday, so as to take up the currency bill.

The currency measure is now going through the formality of consideration by the full Committee on Banking and Currency, with doors open to the public. The Republicans are denouncing this procedure as a farce, inasmuch as there is no chance to amend the bill either in committee or the House, as the democratic caucus has already instructed the majority for the bill as it now stands. Majority Leader Underwood expects that the bill will pass in the House after ten days' consideration. As far as can be learned, the Republicans will not present a substitute for the measure, but will offer amendments. A number of them will support the bill on the final vote.

REV. CASSIDY PREACHED ON "THE GREAT SALVATION."

A great crowd assembled at the Y. M. C. A. tent last night. This was a very fine crowd for Monday night despite the fact that it was Labor Day and there were other attractions. The choir furnished excellent music. S. E. Kirby and Mrs. J. W. Madden favored the audience with a duet, which was very impressive and highly appreciated.

Rev. Cassidy chose for his subject "The Great Salvation." His text was found in Heb. 2:3: "How shall we escape if we neglect so great salvation." The speaker said it was a great salvation because of its author. He said that God was its author, and because

of his great love made it possible for men to be saved.

He said salvation was great because of its universality. That salvation was not for any elect, but for all men of every nation and tribe and clime.

He said salvation was great because of its simplicity. He said that it was easier to be saved than to go unsaved and salvation was based upon the one universal principle of faith.

Rev. Cassidy used a number of illustrations on each point which greatly impressed the truth.

Rev. Cassidy made a strong appeal for men to leave sin and two came forward in response to the appeal.

Services will be held each day at 10 a. m. and 8 p. m. The morning meetings are proving very helpful and beneficial to Christian people, and those who are missing these lose a great treat.—Denison Herald.

Negro to Hang for Murder.

Brandon, Miss., Sept. 3.—Failure to control himself when cursed by a white man, whom he turned upon and killed, caused Will Loney, a negro, to be sentenced to hang. Unless there is an unlooked for respite the sentence will be carried out day after tomorrow. After killing Newell, the farmer who angered him, the negro killed the farmer's wife, who was the only witness to the deed.

Mrs. Browall's Private School.

Mrs. Browall's private school will open Monday, September 8. Rates \$2.00 per month. Call at 101 West 17th or phone 173. 121-112

MANY KILLED IN WRECK

TWENTY-ONE KILLED AND FIFTY INJURED IN WRECK ON NEW HAVEN ROAD.

New Haven, Conn., Sept. 2.—Twenty-one people were killed and nearly fifty injured some of whom may die, in a rear-end collision shortly before 7 o'clock this morning on the New York, New Haven and Hartford Railroad six miles north of here.

The first section of the White Mountain Express, bound for New York, speeding along at probably forty miles an hour in a thick fog, rushed by a danger signal, it is said and crashed into the rear of the second section of the Bar Harbor Express, standing 100 feet beyond the block signal.

The White Mountain engine cleaved through the two rear Pullman cars both of wood splitting them in two and tossing their wreckage and three score of mangled human beings some alive, some dead, on either side of the track.

The third car, also of wood and occupied by forty boys on their way from a summer camp at Monmouth,

If you Value Your Eyesight see An Expert Optometrist I have spent 20 years preparing myself to perfect the correction of the eye. My modern equipment, backed by this long experience is your Guarantee of Satisfaction A.D. Coon, Ramsey Drug Co., Ada, Ok.

Maine, was lifted into the air and fell on its side and crumpled up, crushing two of the boys to death and injuring others.

Some of the victims of the two rear Pullmans were hurled from their berths over a fence paralleling the track, fifty feet away. Mattresses, bedding and clothing found lodgment in the telegraph wires.

It was the third serious wreck which the New Haven has suffered within a year and inaugurated the first day of the regime of Howard Elliott, the newly elected head of the road. Mr. Elliott, returning from his summer home in New Hampshire to assume his duties, passed over the scene of the wreck on an earlier train less than an hour before.

Practically all of the passengers on both trains were returning home from summer vacations and all but two of a camping party of nine, guests of S. Crozer Fox of Elkins Park, Pa., returning from Maine, were wiped out. Fox was among those killed. No one was hurt in the White Mountain train.

DOCTOR CHARGED WITH SERIOUS OFFENSE

County Attorney Roland returned Tuesday afternoon from his trip to the eastern part of the county, where he went to investigate the finding of the body of an infant near Moller about a week ago. As a result of the investigation a complaint was filed against Dr. W. C. Threlkeld of Allen, charging him with having performed a criminal operation. He made bond for \$1,000 to appear at a preliminary hearing to be held at Allen September 16.

The body of the prematurely born child was thrown from a car window about a mile north of Moller just as the train was passing a house. Two small children saw it and took the bundle into the house. From that the investigation started and the county attorney was assailed by Deputy Sheriff Chandler of Stonewall and Harrell and Butler of Allen.

West Tennessee Farmers' Institute.

Jackson, Tenn., Sept. 3.—Twenty-one counties in Western Tennessee sent their most progressive farmers here today to attend the annual session of the West Tennessee Farmers' Institute. Three days will be devoted to actual study of conditions at the experiment station here. It has been decided to depart from the usual plan of lectures. The farmers will spend the time watching the work at the station and learning how the results have been obtained.

To Try Half-Time Schools.

Worcester, Mass., Sept. 3.—With the re-opening of the public schools this week an innovation was introduced in the form of half-time schools of grammar and high-school grades. These schools are intended for the benefit of boys and girls more than fourteen years of age who want to obtain an education and, at the same time, continue their earnings of money as a support of themselves and their families. The plan provides that the boys and the girls employed in factories will be so laid out that when one boy is in school for a week, the other boy of the pair will do his work in the shop. The same plan will be carried out in factories where girls are employed.

Obituaries and Resolutions of Respect of less than 100 words will be published free. For all matter in excess of 100 words a charge of one cent per word will be made. Count your words and remit with manuscript.

THE BIRTH OF AN IDEA.

Six or eight years ago the business men of Henderson, Ky., the metropolis of a large but lagging agricultural district, organized a commercial club and set out to make their town a young Pittsburg. They proclaimed Henderson's advantages on billboards and sent their cleverest talkers to interview capitalists in the large cities. But months and years slipped by, and scarcely any new factories were built. It took these men a long time to realize that they were wasting much precious time in misdirected effort. But at last came an inspiration. The progressive members of the club met the other day and resolved themselves into a crop improvement association, opened the membership books to everybody that would pay the annual dues of one dollar, and hired a farm expert by the year. The idea became popular with the farmers who will control the policies of the organization. The Chicago Board of Trade became interested in the experiment and agreed to contribute \$2,000 to help pay the first two years' expenses; and the Department of Agriculture will pay \$50 a month of the expert's salary. The trained agriculturist will make laboratory tests of soils and dairy products, conduct practical demonstrations on farms, and give free advice to all who ask for it—in fact, do anything he sees fit for the promotion of better farming. The idea is a splendid one. It is based on the sound, fundamental truth that the soil is the source of new wealth. Most commercial clubs spend their energy and money trying to get factories away from other cities.—Colliers.

The Tulsa World came out Sunday with a mammoth edition of over 100 pages in which the resources and opportunities of Tulsa were shown up to marvelous advantage. The World is only eight years old, the youngest metropolitan paper in the state, in fact, but it is a lusty youngster and holds place in the first rank of journals of the Southwest. Its growth has been something phenomenal, keeping pace and often ahead of the thriving oil city, fast as it has grown, and has been a most important factor in making Tulsa the city it is today.

Notice Normal Students.

List all of your second-hand school books with the Normal Book Exchange before Tuesday, Sept. 9th. This is a good opportunity to get rid of all your old books at a reasonable price. See Virgil Cottingham.

T. P. Holt and J. P. Crawford were passengers to Coalgate this morning.

ALMOST 300 BALES COTTON OF RECEIVED

Cotton is now coming in a steady stream, and the season may be said to be in full blast. The receipts for today were not far from 100 bales.

At 3 o'clock 273 bales had been received at the county yard and the round bale gin had turned out about 25.

The price is the best feature of the situation. Today it sold as high as 12.85 in the lint and 4.60 in the seed.

LETTER FROM BOY

AT TRAINING SCHOOL

County Attorney Roland is in receipt of the following letter from one of the Pontotoc county boys who recently went to the training school at Pauls Valley.

Pauls Valley, Ok., Aug. 27, 1913

Mr. Bob Roland, Ada, Okla.
Dear Friend—I am well and hope that you are. Tell Uncle George hello for me and tell him to write to me. Tell Judge King hello, and that I am well. We are filling the silo now. We have thirty cows. We have milk all the time. Write to me. Your friend,

ALBERT HAUSIER.

NEAR DEATH

BY SMOOTHERING

But Husband, With Aid of Cardui,
Effects Her Deliverance.

Draper, N. C.—Mrs. Helen Dalton, of this place, says: "I suffered for years, with pains in my left side, and would often almost smother to death.

Medicines patched me up for awhile but then I would get worse again. Finally, my husband decided he wanted me to try Cardui, the woman's tonic, so he bought me a bottle and I began using it. It did me more good than all the medicines I had taken.

I have induced many of my friends to try Cardui, and they all say they have been benefited by its use. There never has been, and never will be, a medicine to compare with Cardui. I believe it is a good medicine for all womanly troubles."

For over 50 years, Cardui has been relieving woman's sufferings and building back women up to health and strength.

If you are a woman, give it a fair trial. It should surely help you, as it has a million others.

Get a bottle of Cardui to-day.

Write to: Chattanooga Medicine Co., Ladies' Advisory Dept., Chattanooga, Tenn., for Special Instructions on your case and 64-page book, "Home Treatment for Women," in plain wrapper. N.C. 126

SPANISH WAR VETERANS MEET

Buffalo, N. Y., Sept. 3.—Amid much enthusiasm Buffalo today gave welcome to hundreds of men who saw service in the army or navy of the United States during the war with Spain. The occasion of the gathering is the annual national encampment of the United Spanish War Veterans, which had its formal opening today and will be continued during the remainder of the week. The attendance is unusually large. Some of the delegates and visitors have journeyed from points as far distant as Alaska, Hawaii, the Philippines, Cuba and Porto Rico to meet their old comrades and to discuss matters of mutual interest.

The present encampment will again take up the project of a powerful military reserve for the national defense. The project has no parallel in the history of the nation. In effect, it is an offer from 200,000 Spanish war veterans, scattered throughout the United States and possessions, to maintain an organization and hold themselves in readiness for military duty. In return, the veterans will ask the War Department to grant them some of the privileges given to soldiers in the regular service.

In addition to the business sessions the encampment will be marked by many features of entertainment. Members of the women's auxiliary are here in great numbers and have planned a lively program for the rest of the week. Scranton, Los Angeles and Cleveland are bidding for the 1914 encampment of the veterans.

Formula for Lice and Mites.

"Please give me a formula for killing lice and mites on chickens."—Mrs. S. D. Avard, Oklahoma.

Mix thoroughly 3 parts of gasoline and 1 part of 95 per cent solution of crude carbolic acid, or in place of the acid, cresol may be used. Into this solution stir all of the plaster of paris or common cement that it will absorb. Usually one quart of liquid will absorb about four parts of the powder. After mixing this powder spread it out on a board or in a pan and allow it to evaporate. You will then have a dry powder.

In applying this to fowls catch them and dust thoroughly. It will be impossible to eradicate the lice in one treatment. Consequently, the first treatment should be followed in from four to six days with a second application. This will kill all of the lice which hatched from the nits which were not destroyed the first time.—Loyal F. Payne, Poultry Superintendent, Oklahoma A. and M. College, Stillwater.

Boston cigarmakers' Union 97, one of the strongest labor organizations in the country, has voted not to admit foreigners to membership until they have been in America at least one year. In the past it has been the practice of the union to admit foreigners who held union cards from their own unions abroad, but the older members of the union, it is said, have discovered that it is becoming more difficult for them to retain their jobs or find new ones, while the foreigners have been given preference in some of the large cigar factories.

NOTICE.

Any one desiring to take normal students to board are requested to call A. T. Watson or Miss Valle Price, Phone 92.

PUBLIC HEALTH DEPARTMENT

During the past ten days many inquiries have been made as to the number of cases of typhoid fever existing in certain towns in the state of Oklahoma, showing a decided uneasiness on the part of the public and a general belief that it is more prevalent in Oklahoma than heretofore. Readers will probably be interested in knowing that in the month of July, 1911, there was five hundred and twenty-five cases of typhoid fever reported and eight-three deaths. In the month of July, 1912, three hundred and eight cases and forty-four deaths, and in the month of July, 1913, there was three hundred and sixty-three cases and forty-one deaths. This proves that typhoid fever has not prevailed to such an extent this year as it has in previous years.

Typhoid fever is a preventable disease and is due primarily to filth. This disease can only be contracted when you have taken into the mouth the germs that have passed from some typhoid fever patient's bowels. The germs can be carried by flies, filth and dirty fingers, as well as contaminated water and milk.

I am of the opinion that of the number of cases of typhoid reported that only about fifty percent is really typhoid fever. This opinion is formed from the laboratory reports made from blood specimens that have been sent to the laboratory for examination, where only about forty percent are found positive. This year the state is furnishing anti-typhoid vaccine free of cost to those who are unable to pay for the same. If everyone in Oklahoma was vaccinated against typhoid fever the disease would soon be stamped out.

J. F. H., Superintendent of schools in Oklahoma, writes under date of August 5th requesting that he be put on the mailing list for the Board of Health Bulletin. We regret that we were required to discontinue the monthly publication, but the legislature neglected to make a sufficient appropriation to continue this publication and to strike a better balance for our Public Health Educational Campaign.

Mrs. Jos. H., Osage County, writes: "Do you advise the use of madstone in case of hydrophobia?" Answer: Alleged madstones are hoax pure and simple. They have no more effect in treatment of hydrophobia than an ordinary grindstone. We recommend the Pasteur treatment. Notify your county health officer and call your family physician. If you have been attacked by a suspected rabid animal, secure its head, pack it in ice and express it to the Public Health Laboratory at the State University at Norman, Oklahoma.

S. T. K., Majors County asks: "Is there any relief to be had from the unsanitary open closet? What steps can a town take to abate such nuisance?" Answer: Your town council is the local board of health. Have it declare all such a public nuisance and order their abatement; pass an ordinance requiring everyone to install a sanitary toilet—one that is fly proof and that will prevent soil pollution.

HAVE DARK HAIR AND LOOK YOUNG

Nobody Can Tell When You Darken Gray, Faded Hair With Sage Tea.

Grandmother kept her hair beautifully darkened, glossy and abundant with a brew of Sage Tea and Sulphur. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Hair Remedy," you will get a large bottle of this old-time recipe, ready to use, for about 50 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, itchy scalp and falling hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur, because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a sponge or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and abundant.

GRIDIRON WORK STARTS TODAY

COACH CLARK CALLS FOR MEN WHO ARE TO COMPETE FOR TEAM.

Today marks the beginning of what is sure to be East Central's greatest season of football up to date. Although the coach in the past years was a very efficient one, we have every reason to believe that we have secured one who will get better results. Pres. Briles has secured Glenn Clark to coach East Central to victory this season. Mr. Clark has played on the Oklahoma University eleven for the past four years under the hard and efficient coaching of the renowned Bennie Owens. Clark was captain of his team last season and played end. He was one of the strongest men in the "Sooner" eleven possessed. East Central is exceedingly fortunate in securing Mr. Clark.

The new coach has been on the grounds the past few days getting things in readiness, and, incidentally, looking the aspiring material "over."

He expressed himself as much pleased with the prospects for a winning team.

Practically all the old team will

be back ready to fight for their places

Can't Help But Admire Babies

Every Woman Casts Loving Glance at the Nestling Cuddled in its Bonnet.

A woman's heart naturally responds to the charm and sweetness of a pretty child and more so to-day than ever before since the advent of Mother's Friend.

This is a most wonderful external help to the muscles and tendons. It penetrates the tissues, makes them pliant to readily yield to nature's demand for expansion, so there is no longer a period of pain, discomfort, straining, nausea or other symptoms so often distressing during the anxious weeks of expectancy.

Mother's Friend prepares the system for the coming event, and its use brings comfort and ease during the term. This has a most marked influence upon the baby, since it thus inherits a splendid growing system of nerves and digestive functions.

And particularly to young mothers is this famous remedy of inestimable value. It enables her to preserve her health and strength, and during a pregnancy a pregnant mother by having avoided all forms of suffering danger that would otherwise accompany such an occasion. Mother's Friend thoroughly lubricates every nerve, tendon and muscle involved and is a sure preventive for caking of the breasts.

It is a safe, simple remedy on sale at all drug stores at \$1.00 a bottle and is highly recommended for the purpose. Write Bradfield Regulator Co., 134 Lamar Bldg., Atlanta, Ga., and they will mail you sealed a very instructive book for expectant mothers.

EXAMPLE OF WHAT CULTIVATION WILL DO

The News has on exhibition two stalks of cotton raised by M. F. Dew which give an excellent idea of the results obtained by proper and improper methods of cultivation. One is from a patch which received only an ordinary amount of work and is just about an average stalk for this season. The other contains about fifty bolls and when pulled was green and fresh and still blooming. This stalk was from a field of about twenty acres which he prepared carefully, flat breaking it early and plowing it seven times.

Mrs. C. R. Lindsey and daughter, Miss Ida May, who visited Mrs. P. T. Drummond, returned to their home at Okemah this morning.

TEACHERS WILL

MEET AT TULSA

Tulsa, Ok., Sept. 3.—Branding as absolutely false and without foundation the published reports that the 1913 convention of the Oklahoma State Teachers' association had been transferred from Tulsa to Muskogee, L. O. Wilson of Ada, member of the executive committee of the association, visited Tulsa yesterday to interview local parties in the arrangements that will be provided for the big meeting next December.

"The committee has not held a meeting in some time," said Mr. Wilson, "and no action has been taken that could give foundation to any report that the convention had been removed to Muskogee. We decided at Oklahoma City several months ago to hold our next convention at Tulsa, and as far as I know, there will be no change in that plan."

Mr. Wilson stated that the committee will hold a meeting at Hotel Tulsa next Friday to confer with local people regarding the accommodations that will be furnished the 4,000 or 5,000 teachers who will be in the city on December 29, 30 and 31.

When the executive committee decided on Tulsa as the convention city, it was with the understanding that a suitable place in which to hold the meetings would be provided. Unauthorized persons recently gave out information to the effect that new Tulsa convention hall would not be ready for use by the time of the convention. It is a fact, however, that the contract for the erection of the convention hall will be awarded within the next ten days and actual work will be started by September 20. There is every indication that the building will be sufficiently completed by December 29 to accommodate the sessions of the State Teachers' association. If such is not the case, however, and the Grand Opera House proves to be too small for the occasion, the immense Kafir Corn palace, now being erected near the fair grounds for the International Dry Farming congress, and which will hold over 6,000 persons comfortably, can be utilized by the teachers.

A number of prominent Tulsans will meet with the executive committee Friday and go over the proposition in detail. There is no question but what perfectly suitable arrangements can be made for taking care of the big state meeting in an adequate manner.

The executive committee is composed of the following:

L. O. Wilson, Ada; L. E. Weatherwax, Muskogee; P. G. Rawdon, Chandler; Dr. Brooks, state university; T. B. Rybolt, Lawton.

Mr. Rybolt, however, will no longer serve on the committee, having been automatically dropped from membership when he resigned as superintendent of the Lawton school. His vacancy will be filled by the other members of the committees when they meet here Friday.

Superintendent Bishop of the Anadarko city schools is likely to be appointed, it is said.

"MAIDS OF PARADISE"

COMING TO ADA.

The News has ordered for its readers a brand new serial story entitled "Maids of Paradise." The opening installment will appear in a few days, probably Monday or Tuesday. Watch for further announcement.

MUNITION RETURNED TO MAKERS.

New Orleans, La., Sept. 3.—After having been the direct cause of several law suits and a number of thrilling experiences 2168 boxes of ammunition and 156 cases of rifles have been returned to a northern arms factory. The arms were intended originally, it is believed, for the ill-starred revolt of Felix Diaz at Vera Cruz. Keen eyed men, kept here by the Department of Justice, stopped the shipment. Several Mexicans were arrested and tried, but acquitted. A large hardware firm also was called upon to answer for an alleged attempt to break the neutrality laws, but no infraction of the law was shown.

Since then there have been several changes in the ownership of the property, but all efforts to get the munition out of the country have failed. The last owner, an Englishman, from Mexico City, who bought the arms and ammunition for speculative purposes, found the arms company itself the best purchaser he could find.

MISSOURI METHODIST CONFERENCE.

St. Charles, Mo., Sept. 3.—Beginning today and continuing until the first of next week St. Charles is to entertain the annual session of the Missouri conference of the Methodist Episcopal church, South. A large representation of the clergy and laity is here to take part in the proceedings. The conference is to be directed by Bishop E. E. Hoss of Texas, assisted by Bishop E. L. Mouzon at Tennessee.

BOYS AND GIRLS PICK COTTON TO RAISE FUNDS

Tuesday the Athletic and Civic Improvement Association of the Ahloso school, composed of about twenty boys and girls, spent the day picking cotton, the money received from the work to be applied to the purposes of the organization. Prof. I. J. Myers, the principal of the school, seems to be succeeding admirably in arousing a community pride and interest among his pupils and in making his school the social center of the community.

The summer session closed Friday, after a splendid term. The average daily attendance was 95 per cent of the total enrollment, a record hard to improve upon.

J. W. Dean returned this morning from a business trip to Jesse.

KATY OFFICIAL THINKS

WELL OF ADA

A private business letter from one high official of the M. K. & T. railroad to another official in a different department contains the following highly complimentary reference to Ada:

"I have looked this situation over a number of times, and in view of Ada now being a town of 5,000 population the county seat of Pontotoc county, having probably the best supply of water and system of waterworks in Oklahoma, and probability of oil and gas development in that part of the country, it seems to me that the town is likely to grow and become a very important trading point by its advantage for controlling factories of different descriptions."

STEEDMAN.

The revival services conducted by Revs. Nettles, Caldwell, Isom and Wooten is progressing splendidly with 65 conversions up till Sunday night.

Mr. H. B. Shinn and family left Monday for a few days visit among relatives at Danville, Ark.

Mr. Kin Alexander is visiting relatives at Durant this week.

The cotton picking business is improving daily. The gin is running almost all the time.

The W. O. W. and the Woodmen Circle are preparing for a big rally in next month.

The vote on the extra tax levy for the school resulted 48 to 8 in favor of the levy which put Steedman ahead of the districts that turned down the tax. Steedman will have a seven months term and as the school board has purchased over \$200 worth of new equipment and is making other improvements it is predicted that the school will be a success in every respect.

Miss Lillian Oliphant of Ada will teach the primary grades.

Mr. Warren Ash has built a new well box designed after patterns obtained from the Ladies' Home Journal.

Prof. Roy Robison closed his school at Black Rock Friday. Roy made a splendid success this summer.

**Old Aunt Dinah
50 Years ago
—and
Miss Dinah Junior
Today**

A Wonderful Change—

Compare today's methods of baking with the old days when Aunt Dinah used sour milk and soda and baked on the open hearth, and you'll find wonderful improvements. The most wonderful of these modern helps is—

CALUMET Baking Powder

Surprisingly better than any other brand. Never a disappointment. Your biscuits will be light and sweet—Your cakes will raise evenly and will retain that moist delicate sweetness for days. Calumet cakes don't dry out quickly. Calumet costs less than the Trust made kind—yet it's better—costs a little more than the cheap "Big-Can" brands, but it is worth the difference. Every spoonful does its work perfectly—no failures—no waste.

Buy a Can from your grocer today and watch your baking troubles disappear. If you don't get Calumet, you don't get the best.

RECEIVED HIGHEST AWARDS

World's Pure Food Exposition, Chicago, Illinois.

Paris Exposition, France, March, 1912.

You don't save money when you buy cheap or big-can baking powder. Don't be misled. Buy Calumet. It's more economical—more wholesome—gives best results. Calumet is far superior to sour milk and soda.
